

Testing and Assessment Policy

Full range testing and assessment services are available in order to assist with diagnosis and treatment of disorders in children, adolescents, and adults. The most common assessments completed at Kimberly Boyd Counseling Center include Attention Deficit Hyperactivity Disorder, the Autism Spectrum, Full scale IQ/Cognitive Processing, Anxiety, Depression, Learning Disorders, Personality Evaluations, Chronic Pain Evaluations, Pre-Bariatric Surgery Assessments, and Career Testing. In some circumstances, the provider administering the tests/assessments and evaluating the questionnaires returned by the parents, guardians and/or teachers will collaborate with other providers within Kimberly Boyd Counseling Center (KBCC).

The typical turn-around for results is typically 45 business days from the date of the assessment being completed and all requested paperwork being turned in.

The total cost is \$995.00. This amount can be broken up into payments with the balance due prior to receiving results. KBCC does not bill insurance for testing and assessments. The client may contact their insurance company regarding reimbursements; however, KBCC will not accept any type of reimbursement or payment from the insurance company for testing and assessments. Providers with KBCC are not contracted with insurance companies for testing and assessment services.
